PROFILE

I'm a developer with enthusiasm for complex problem solving & quality user experience. Very experienced with ReactJS, SPAs, cloud based hosting (AWS, DigitalOcean), Wordpress/Joomla, and HTML/CSS/Javascript. I also have extensive experience with ecommerce and UX tools such as Figma, Adobe Creative Suite, Hotjar & UserTesting.com, as well as Adwords and Facebook Pixels. I've been a dedicated and passionate project manager and team member with with excellent people skills, and useful creative ability.

EMPLOYMENT HISTORY

Senior React Developer, Kinetic Scientific

Toronto

Nov 2016 — Aug 2020

- 3 custom user interfaces designed & built for active racing yachts
- "Single page applications" built with a React/Redux tech stack.
- Data Intensive and high performance software.
- Unique and challenging design considerations
- Worked directly with customers to design and build systems to meet their needs & expectations

Lead Developer & Media Strategist, Luminate Enterprises

Toronto

Apr 2019 — Present

- Managed and developed multiple projects, including Essay.app, a web application designed to improve people's ability to write.
- Built 2 production grade single page applications with React & Redux.
- JSON based REST API, and some experimentation with GraphQL.
- Essay.app is a progressive web app, built with React.
- Used AWS to host, Hotjar.com to track user engagement, and usertesting.com to shape development decision making, among countless other tools.
- Responsible for marketing decisions, budgeting, and team management, as well as a lead developer role working with React.

Software Developer, Examcorp

Toronto

Dec 2016 — Apr 2019

- Designed & built [www.selfauthoring.com](#) and [www.jordanbpeterson.com](#)
- Sites were built with Wordpress, Jekyll, and Joomla
- Tracked customer behavior with Google Analytics
- Ran a successful merchandise store with TeeSpring.

Junior Software Developer, Teal Valley

Toronto

Jul 2016 — Oct 2016

- React JS, Docker, Node.js for a startup medtech company
- Was mentored by an experienced developer during the beginning of my career.

EDUCATION

Bachelor of Arts (Honours), University of King's College

Halifax

Sep 2011 — Apr 2015

Combined honours in Philosophy & Contemporary Studies - Minor in Music

COURSES

Web Development Bootcamp, Lighthouse Labs

Mar 2016 — Jun 2016
